Subject: Stormwater Task Force Proposal

Dear Mayor Mills and Commissioners:

The Board of Directors has adopted the following position regarding the proposed Stormwater Task Force:

Since the beginning of the discussion about a Stormwater Utility and the formation of the Task Force, RBHA has stated that it is premature to form a utility with accompanying fees before a stormwater management plan has been fully developed and publicly vetted. We will continue to follow this discussion and keep our members informed of future developments, discussions and decisions.

Respectfully,

Pam Baker
President, RBHA

cc: RBHA Board of Directors
